Lead times:

The lead time for items in stock is 5 - 7 working days, but we may be able to ship them out more quickly if an urgent delivery is needed. The lead time for items not currently in stock will be 4 - 6 weeks subject to the manufacturers production schedule.

Delivery:

Delivery costs vary considerably with the weight of the order, the delivery location and any specific delivery requirements. To ensure we can provide the best price we can please contact the sales office so we calculate a price for you.

Receiving goods:

Please note: it is the customer's responsibility to unload the goods when they arrive.

Smaller items and quantities are sent by carrier, but goods may need to be sent on a pallet depending on the weight and nature of the goods.

Pallets of goods can be large and heavy and the correct lifting equipment or labour will need to be provided.

Pallet deliveries which are 1.8m or less can be unloaded using a tail lift on the vehicle. Larger pallets will require a fork lift or similar to unload or will need to be handballed off. Deliveries which are turned away due to lack of loading facilities will incur a redelivery charge.

E & OE. Items marked 'poa' are priced on application only.

Filcris Ltd Landscaping & Conservation Products Retail Price List April 2019:

All prices are ex works. See end for lead times and delivery details

Lead times:

The lead time for items in stock is 5 - 7 working days, but we may be able to ship them out more quickly if an urgent delivery is needed. The lead time for items not currently in stock will be 4 - 6 weeks subject to the manufacturers production schedule.

Delivery:

Delivery costs vary considerably with the weight of the order, the delivery location and any specific delivery requirements. To ensure we can provide the best price we can please contact the sales office so we calculate a price for you.

Receiving goods:

Please note: it is the customer's responsibility to unload the goods when they arrive.

Smaller items and quantities are sent by carrier, but goods may need to be sent on a pallet depending on the weight and nature of the goods.

Pallets of goods can be large and heavy and the correct lifting equipment or labour will need to be provided.

Pallet deliveries which are 1.8m or less can be unloaded using a tail lift on the vehicle. Larger pallets will require a fork lift or similar to unload or will need to be handballed off. Deliveries which are turned away due to lack of loading facilities will incur a redelivery charge.

Filcris Ltd Palisade Posts Products Retail Price List April 2019:

All prices are ex works. See end for lead times and delivery details

Lead times:

The lead time for items in stock is 5 - 7 working days, but we may be able to ship them out more quickly if an urgent delivery is needed. The lead time for items not currently in stock will be 4 - 6 weeks subject to the production schedule.

Delivery:

Delivery costs vary considerably with the weight of the order, the delivery location and any specific delivery requirements. To ensure we can provide the best price we can please contact the sales office so we calculate a price for you.

Receiving goods:

Please note: it is the **customer's responsibility** to unload the goods when they arrive.

Smaller items and quantities are sent by carrier, but goods may need to be sent on a pallet depending on the weight and nature of the goods.

Pallets of goods can be large and heavy and the correct lifting equipment or labour will need to be provided.

Pallet deliveries which are 1.8m or less can be unloaded using a tail lift on the vehicle. Larger pallets will require a fork lift or similar to unload or will need to be handballed off. Deliveries which are turned away due to lack of loading facilities will incur a redelivery charge.

E & OE. Items marked 'poa' are priced on application only.
