Directions to Filcris Ltd:

Please note that although our postcode is CB23 2TA many SAT-NAT systems do not recognise this or give the wrong address, since our post code was changed several years ago and most systems have not been updated. Our old post code was CB3 7TE, which may help. We are located in an industrial unit which is next to (but not on) Bourn airfield, next to Broadway which runs from St Neots Road (the old A428) to the village of Bourn, on the left hand side as you are driving south. It is called the Old Fire Station because that was the location of the fire station on the airfield during World War 2 – it does not look like it sounds! The directions below are in text but the blue title for each is a link to a Google map.

[Directions from M11, A10 south of Cambridge:](#)

Come off M11 at Junction 13. At the top of the slip road turn LEFT on to Madingley Road, signposted to St Neots. Go up Madingley Hill until you get to the roundabout by Madingley Mulch, where you go down the slip road to join the A428 road to Bedford. After about a mile take the Dry Drayton turn off (immediately after the blue footbridge) then go straight over the roundabout at the top of the slip road. There is a BP garage on the left after about half a mile and then another roundabout – take the **third** exit which takes you over the dual carriageway on a flyover. Don't go into the airfield – there is an industrial estate there and everyone goes there by mistake. After about 2 miles there is a turn off to the left which takes you via a bridge back over the dual carriageway towards Bourn village on a road called Broadway. Turn down this road. We are about half a mile after the bridge on the left, set off slightly from the road in a large grey steel industrial unit. There is not a very large sign, but it is marked.

[Directions from A14 East, A11, A10 north of Cambridge etc](#)

Where the A14 splits off from A428 at the Girton interchange (Junction 31), continue towards Bedford on the A428. It is advisable to stay in the right hand lane during peak hours. After about 2 miles take the Dry Drayton turn off (immediately after the blue footbridge) then go straight over the roundabout at the top of the slip road. There is a BP garage on the left after about half a mile and then another roundabout – take the **third** exit which takes you over the dual carriageway on a flyover. Don't go into the airfield – there is an industrial estate there and everyone goes there by mistake. After about 2 miles there is a turn off to the left which takes you via a bridge back over the dual carriageway towards Bourn village on a road called Broadway. Turn down this road. We are about half a mile after the bridge on the left, set off slightly from the road in a large grey steel industrial unit. There is not a very large sign, but it is marked.

[Directions from A14 West, A1 from the North M6 etc](#)

Come off the A14 at Junction 24, turning south onto the A1198 towards Royston. At the roundabout at Papworth Everard (after 6 ½ miles) take the third exit onto the bypass. Go over the next 2 roundabouts, continuing on the A1198. At the Caxton Gibbet roundabout take the first left onto the A428. After about 1 mile come off at the Cambourne slip road, taking the THIRD EXIT off the roundabout, which is signposted towards Boxworth and Knapwell. After about 1 ¼ miles take the road to the right which takes you via a bridge over the A428 towards Bourn village on a road called Broadway. Turn down this road. We are about half a mile after the bridge on the left, set off slightly from the road in a large grey steel industrial unit. There is not a very large sign, but it is marked.

[Directions from A1 south, via Royston](#)

Come off the A1 at Junction 9. Exit towards A505 towards Baldock, then on towards Royston. Go round the Royston Bypass and at the second roundabout take the left up the A1198 towards Huntingdon. After 9 miles turn RIGHT onto the B1046 (Fox Road). After about half a mile turn left and then left again into Bourn Village. Go straight through Bourn up Alms Hill and onto Broadway and head North out of the village. We are about a mile and a quarter, we are on the right, set off slightly from the road in a large grey steel industrial unit. There is not a very large sign, but it is marked.

See over for pictures showing our factory.
